

# THE MIRACLE THAT IS THE BIBLE

**NYRON MEDINA**

HOLY  
BIBLE

**GOD'S WORD  
IS A ROCK OF  
UNCHANGABLE  
TRUTH!**

SF281

May we present a unique book to you, a book like which no other exists in this world. This book is called the **Bible**. It is an accumulation of the actual **thoughts of God** to sinful man for six thousand years, expressed in the common imperfect speech of man. When you read this book you should always pray to God for understanding of the divine thoughts behind the words, and ask Him to help you lay aside your previous concepts and ideas which will block your understanding from comprehending what God wants to say to you as an individual.

This book is different to all other books, so that you always need the aid of the Holy Spirit to understand its messages to encourage divine transformation of the experience of the thoughts of your mind, to make you love holiness, righteousness, sinfreeness, purity away from sin, and to motivate you to keep all God's ten commandments.

It is contact with God's up-lifting thoughts in the human words of the Bible that enlightens the mind with truth and encourages the appetite to want to know more truth, and to want to live it. It is in this unique book that we learn of the Plan of Salvation that God instituted to save us away from sin by actually making us sinfree; it is in this book that has a supernatural origin that God has provided a way to change human morality from destructive sin and vices, to pure, holy, uplifting and ennobling values which the person appreciates; no other book, no institution of learning, no penalty, no psychologist or psychiatrist, no psychiatric drugs, can achieve this miracle of genuine heart renewal which this sinful world desperately needs.

In the pages of the Holy Bible, a person will learn many truths, the accumulation of which gives to the student God's purpose for his life and meaning to his existence. Despite all the multitude of attacks upon the Bible for centuries, it can still bless all who read it and study its teachings with honesty and sincerity, really willing to learn and do the will of God. This is the only book in the world that has endured attacks by false Greek texts, false translations, added false books to its cannon, and attempts to alter some of the words of its text. Brilliant minds, superb scholars, and astute historians have all attacked this book, yet it has survived the eras of superstition, ritualism, self righteousness, skepticism, speculation, false sciences and digitalization. All its history is true, and it is science that needs to catch up to it. It destroys all false doctrines while establishing true doctrines. We urge you to dedicate yourself to the spiritual study of this book which is excellent to change criminals, and wonderful for counseling of all problems. May God guide your honest inquiry in Jesus holy name. Amen.
