

# The Problem with the United States of America

By Nyron Medina

The picture you have seen made by Dees, indicates the disease the United States is plagued with; a whole generation of politicians that do not understand the U.S Constitution and with their lust of money, have no respect for the sacred documents of that country. What does that have to do with us? Whatever affects the United States affects all countries of the world, thus if the U.S Constitution changes, if the freedoms it holds out to the world as the ideal of the relationship of government to its citizens changes, tyranny that has been restrained all over the world to a certain extent, will take an unprecedented increase worldwide, causing many to suffer loss of their God given Rights and Freedoms.

As the leaders in the United States follow policies of the Illuminati from its multitudinous front organizations to piece by piece merge the U.S into a new socialist world order, the U.S. Constitution and the ideals in the Declaration of Independence are being undermined and are preparing the way for the soon coming miraculous influence of Christian Spiritualism that will do the final work of abolishing liberty of conscience and the Rights and Freedoms that we cherish and this has made the world a safer place to live in since 1798. The current president of the United States is a great destroyer of the Constitution like his predecessor, thus we ask ourselves these questions. If the last bastion of freedom is destroyed, where shall we flee to live in peace? What example will other countries have as an ideal to follow? Which country will be the leader in the global protest for the respect of Human Rights and Freedoms? Which country will by its influence, prevent the world from slipping into another dark age of tyranny? It is true that the United States current record of deception, torture and withholding of information from the public in its wars of the first decade of the twenty first century has already undermined its moral authority in the world to a large extent, but it is the influence of its leaders that has done the most harm in the destruction of its Constitution. Read Revelation 13:11-18 to see what is to come because of the current destruction of the US Constitution.

Amen
